Form QMF 611-14_01 / Version dated 11 July 2026

Certification and surveillance of factory production control

for the following construction products (please tick as applicable):

- ■ **DIN EN 13108-1** Asphalt concrete
- ■ **DIN EN 13108-2** Asphalt concrete for very thin layers
- ■ **DIN EN 13108-3** Soft asphalt
- ■ **DIN EN 13108-4** Hot-rolled asphalt
- ■ **DIN EN 13108-5** Stone mastic asphalt
- ■ **DIN EN 13108-6** Mastic asphalt
- ■ **DIN EN 13108-7** Porous asphalt
- ■ **DIN EN 12620** Aggregates for concrete
- ■ **DIN EN 13139** Aggregates for mortar
- ■ **DIN EN 13055-1** Lightweight aggregates — Part 1: For concrete, mortar and grout
- ■ **DIN EN 13055-2** Lightweight aggregates — Part 2: For asphalt, surface treatments and unbound applications
- ■ **DIN EN 13043** Aggregates for bituminous mixtures and surface treatments for roads, airfields and other trafficked areas
- ■ **DIN EN 13450** Aggregates for railway ballast
- ■ **DIN EN 13242** Aggregates for unbound and hydraulically bound materials for civil engineering and road construction
- ■ **DIN EN 13383-1** Armourstone — Part 1: Requirements
- ■ **DIN EN 12951** Bitumen and bituminous binders — Requirements for paving grade bitumen
- ■ **DIN EN 14023** Bitumen and bituminous binders — Framework for specification of polymer modified bitumens
- ■ **DIN EN 13808** Bitumen and bituminous binders — Framework for specification of cationic bitumen emulsions

Form QMF 611-14_01 / Version dated 11 July 2026

Application type

■ Initial application — issuance of a certificate for factory production control for the first time and exclusively by this notified body

■ Amendment / extension of an existing certificate for factory production control

Certificate issued by: _____

Certificate number and date: _____

(Please enclose the certificate.)

It is further declared that factory production control is carried out under the responsibility of the manufacturer.

The undersigned declares that they fully acknowledge and accept the conditions and regulations of the notified body governing its services. The notified body is authorised to carry out the necessary initial inspection of the plant and to surveil factory production control as required. Surveillance of factory production control is carried out annually.

The applicant also agrees to acknowledge and comply with changes to the certification scheme or assessment criteria that affect certification. The applicant further agrees, where necessary, to make changes to the product in response to changes in product standards. The applicant must notify the certification body in writing, without requiring a formal form, of changes within the company and at the plant, particularly changes affecting certification requirements (production, organisation and ownership).

The applicant consents to the notified body disclosing information and data where such disclosure is required by law.

Form QMF 611-14_01 / Version dated 11 July 2026

Use of conformity marks and certification documents

The applicant undertakes to use conformity marks properly and to refrain from any misleading or unauthorised use or publication, or any use or publication that could bring the certification body into disrepute.

If certification is suspended, withdrawn or terminated, the applicant undertakes to cease all use of documents resulting from the certification and to ensure without delay that the certificates granted to them are marked as invalid.

The applicant undertakes not to falsify certification documents and to issue or reproduce them only in their entirety.

The following documents are enclosed:

- Factory Production Control (FPC) Manual
- List of supporting quality management documents (calibration certificates, etc.)
- Sample delivery note showing CE marking (recommended)

The notified body is entitled to use the data listed above for the certification of factory production control.
